Macroeconomics test bank questions and answers
Metaphorically, shoe leather cost is the cost of time and effort (or opportunity costs of time and effort) that people expend by holding less cash in order to reduce the inflation tax that they pay on cash holdings when there is high inflation.These costs include, having to make additional trips to the bank, not being able to make change, or not being able to make unexpected purchases.

Shoe leather cost - Wikipedia
For chapter 1, most instructors try to cover this chapter in a single class session (especially those that are teaching the second of a two-semester sequence). If you are teaching a "principles of microeconomics" course, you might consider skipping Principles 8-10, which deal with macroeconomics.
