Darlah - Wikipedia

172 Hours on the Moon. Only 4 left! In 2019, teens Mia, Antoine, and Midori are selected by lottery to join experienced astronauts on a NASA mission to the once top-secret moon base, DARLAH 2, while in a Florida nursing home, a former astronaut struggles to warn someone of the terrible danger there.

172 Hours on the Moon by Johan Harstad - Goodreads

According to the information, the three winners would spend 172 hours on the moon plus the trip from Earth and back, which would take just over a week. They would stay at the DARLAH 2 moon base (weird, he'd never heard anything about a base being built on the moon, and he knew a few things about space travel), and from there they would perform a number of experiments on the surface.
