2001 Freightliner Meritor Transmission 10
I have an issue with a 2001 Freightliner with a 10 speed Meritor transmission. When going from 5th to 6th gear, flipping the range selector to high, it will grind for a second before shifting in to 6th gear. It does it every time going from low to high but never from high to low. It shifts into and out of each gear very smoothly.

9- and 10-Speed Manual Transmissions
The one we've been discussing is a different one it's actually a rockwell/meritor design. The actual zf designed transmission are expensive and more expensive to work on. The ones in newer freightliners you can't even get parts for.. they are called the ZF freedom line and are automated manuals that are fully synchronized.
