Has anyone here experienced this before: Car was warming up and I went to "check" the oil. As soon as I pulled the dip stick out a little all I heard was a sucking type sound and then the engine started to shake and make sounds like it was bogging down. Almost like it wasnt getting enough air. As soon as the dip stick went back into the motor, things became normal again.

Engine Vacuum Pumps for Audi A4 for sale | eBay

When the valve cam of your Audi A4 or Audi A4 Quattro turns, it pushes against the valve stem, which pushes the valve head away from the hole. The cams on your Audi A4 or Audi A4 Quattro are adjusted so that the valves open and close with the correct timing for the combustion phases.

Valves & Parts for Audi A4 for sale | eBay

It's not a requirement if you know what you're doing and you've done it before. I've taken the lower manifold off a few times now, and even after that I still don't feel comfortable taking it off without the front off.
