It's a little complicated before you fully understand how Elemental Hit conversion and scaling works (you don't need to understand it either, it's mostly academic as long as you follow the recommendations).. To explain it very simply: Baseline Elemental Hit adds damage of all three elements to an attack (let's say 500 Fire, 500 Cold, 500 Lightning) but only deals damage of the chosen ...

NO.1 General/Mechanics. We use Ranged Attack Totems with Barrage and Tornado Shot. The Lioneyes Glare bow tends to make it impossible to miss and to scale our harm we convert all the things to cold with Hrimssorrow and passive nodes. We pick up Elemental Overload considering that we do not have sufficient points/room to scale crit correctly.
