351 Windsor Marine Engine

Specifications for a 351 Windsor Engine by Paul Novak . Produced from 1969 to 1996, the Ford 251 Windsor was based on the smaller 302 engine design and was originally intended for use in passenger cars. In following years, the 351 was added to trucks, and versions were installed as marine engines as well. Several design changes took place ...

Marine 351 Windsor heads? - FordWindsor

The Ford 351 Windsor was first introduced in 1969 and was quite a breakthrough in regards to the ways Ford produced its V8 engines. When Ford introduced the 302 to replace the 289 the engines were very similar and even used the same pistons.. The 351 Windsor was in a league of its own because of its heightened deck block, larger connecting rods and much "beefier" main bearing caps.

Marine Crate Engines built by ATKHP Performance Engines

The marine industry's relationship with the 351W platform ended when Ford was unable or unwilling to compete with GM's production of TBI- and MPI-equipped engines in mass quantity. During that time, the recreational marine community's small-block V8 platform of choice shifted to the 350 cu in (5.7L) GM L31 (Vortec 5700) engine series.

Ford 351 Windsor 345 HP Turn Key High Performance Balanced ...

I have a friend who has a 24 foot ocean boat powered by a 351 Ford marine (apparently one made in Mexico and not Michigan, so is suppose to produce less than 260HP), VolvoPenta outdrive, 4 barrel carburetor, that seems to have a maximum RPM of about 4100 WOT @ 24 knots and burning 20+ GPH.eek:. At about 3800 RPM and 21 knots it burns 16-18 GPH but seems to loose performance/handling at this speed.

Remanufactured 5.8L (351W) Ford Marine Engine

This motor has been professionally remanufactured to meet or exceed OEM marine engine stock specifications. This 5.8L Ford engine is rated at 260-310hp at the crank (depending on intake, carb or EFI, exhaust manifolds, etc). This 5.8L engine will work in all Ford 5.8L (351W ci) marine engine applications, with little to no modifications.

Ford 5.8 351 Windsor Engines - Atlantic Marine Store

Whether marine or street, 302W or 351W, all are junk for any even mild performance engine. Small exhaust ports kill any hp potential (need to really bookmark this as it's often repeated here by me!).
