### **3d Printing Projects 20 Design**

**3D printing is also known as additive manufacturing, or desktop fabrication. It is a process in which a real, physical object is created based on a 3D design blueprint. 3D printing is an emerging technology that first was introduced in the year 1986; however, it wasn't until the 1990s that it began to draw serious attention from all corners of the technology world.**
