Yoshimitsuspeed's guide to turboing the 4A-GE | Matrix Garage

Toyota 4A engine modifications and differences. 4A-GE Gen 5 20V “ Black Top ” (1995 – 1998) is the last 4AGE-type. That engine has enlarged throttle body. The inlet and outlet ports are improved. The flywheel and pistons are facilitated, the engine compression ratio is about 11. More aggressive cams have been installed.

Webers On A 4age...? - Engine Conversions - rollaclub.com

The 4AGE is part of a family of engines - there are also 2A, 3A/5A and 7A engines which correspond to 1300, 1500 and 1800 cc capacities respectively. It is possible to mix and match parts within the A-series engines, hence producing a 1300 cc 16 Valve motor, which some people are doing for 1300 cc competition classes, or an 1800 cc supercharged engine...

Toyota A engine - Wikipedia

Man some 4age 20v turbo engines that i saw all of them had 4agze bottom. Almost all of 20v blocks cracked at the 3rd cylinder. So 4agze bottom end with 20v forged pistons it would be good for 300-350hp. If you want more hp you will need to change the rods.

Putting A Turbo System On A 4Age 16V Small Port - General ...

Another option is to replace the 4AGE distributor with a more conventional one. 2T or 2K electronic ignition type distributors are a popular option, but require a bit of modifying to fit, including fitment of the 4AGE distributor drive gear. You can then run vacuum and mechanical advance and use the standard coil/igniter pack.

Description. This system is more complex to build which requires either 2x wastegate ports or a 2-1 wastegate setup. 2 Model types available: Non Air Con setup – Turbo compressor housing faces cam belt side of engine meaning shorter IC piping can be done. Air Con setup – Turbo compressor housing faces gearbox side. Both models fit with Power Steering.

Anybody on here running a 4AGE 20V Turbo engine ...

4age is a good engine. People are just spouting BS. Keep at it. Just think of the formula atlantic 4age making 240hp from a N/A 1.6l pretty insane. 155hp per liter meaning a 5.7l v8 would have to make 855hp to have the same hp per liter.

4age Turbo FWD Manifold – Manon Racing Products

For Example. Note: Toyota, in 1987, began assigning dual letter engine codes to some of the "engine family" categories in some engine lines, particularly six cylinder models. This can create potential confusion. E.g. 1MZ-FE – This is not a supercharged, narrow angle, fuel injected M-series engine, but a narrow angle, fuel injected MZ-series engine.

AE86 turbo 4age stock engine

Based on the same block and cylinder head, the 4A-GZE engine was equipped with a Roots type supercharger producing 8 psi (0.55 bar) peak manifold pressure, and the compression ratio was lowered to 8:1 with the use of forged and dished pistons.
