*Coastal tourism • Need to be clear about the tourism growth and potential
(aspirations) • This is not business as usual. Need to identify catalytic coastal and
marine tourism initiatives, interventions and projects. Example of criteria for
catalyst projects: GDP potential, employment potential, social, environmental and
economic contribution.*

Red 7 Marine | The Marine Partner of Choice

*Seabirds (also known as marine birds) are birds that are adapted to life within the
marine environment. While seabirds vary greatly in lifestyle, behaviour and
physiology, they often exhibit striking convergent evolution, as the same
environmental problems and feeding niches have resulted in similar adaptations.
The first seabirds evolved in the Cretaceous period, and modern seabird families ...*
