Leather making is an ancient art that has been practiced for more than 7,000 years. Fresh skins were dried in the sun, softened by pounding in animal fats and brains, and preserved by salting and smoking. Beginning with simple drying and curing techniques, the process of vegetable tanning was developed by the Egyptians and Hebrews about 400 bce.

Kit includes 40 O-ring seals, 10 in each of four different graduated sizes. Sizes A and B will fit most standard-sized (5000-word) Nozacs, use C or D for oversize pens (7000-word). O-rings stretch over the piston head, seal tighter with less friction than any other seals we've tried. No more time-consuming gluing together of split cork!

My Seiko 6159-7000 came next and also from Japan. The 1968 Seiko 6159-7000 came a couple of years later also from Japan. This was a much better watch, but also in non-running shape. You can see, though, that this was no drawer queen. The seller didn't provide a whole lot of detail, but the mainspring was the culprit once again.

For 30 years, we have been studying and protecting the seals of the Somme Bay. Up until today, the young seals which had been stranded on the beach were cared for in our rescue centre situated on a piece of land belonging to the "Bird House" and which we have had to give back. So, at present, we have no longer got a centre to accommodate the first seals of the season arriving at the beginning ...
