Mass Air Flow Meter Sensor MAF 22204-22010 For Toyota ...

How does this work and when exactly is it needed? We're getting a 1994 Mazda MPV (I posted about it, along with a few questions, in the Car Safety Forum) that has only a lapbelt in the middle row. It's a short, two-seater bench with headrests in both spots, but only a lapbelt on the passenger (really in the middle) side. The lapbelt male end comes out forward of the seat bight, and it retracts ...

Belt-shortening clip - Car Seat.Org

The most common recommended orientation for a forward-facing CR is the most upright position. Many convertibles and some child seats have two or more choices of seating angle for forward-facing use, and each of these positions must be certified to FMVSS 213. Although the most upright position probably still provides the most effective overall restraint in terms of load distribution to ...
