ADVERTISEMENTS: Adam Smith and David Ricardo gave the classical theories of international trade. According to the theories given by them, when a country enters in foreign trade, it benefits from specialization and efficient resource allocation. The foreign trade also helps in bringing new technologies and skills that lead to higher productivity.

Theories of International Relations

Gottfried von Haberler (German: ['ha:bele]; July 20, 1900 – May 6, 1995) was an Austrian-American economist. He worked in particular on international trade. One of his major contributions was reformulating the Ricardian idea of comparative advantage in a neoclassical framework, abandoning the labor theory of value for an opportunity cost concept. ...

Instructor's Manual - USP

International economics is concerned with the effects upon economic activity from international differences in productive resources and consumer preferences and the international institutions that affect them. It seeks to explain the patterns and consequences of transactions and interactions between the inhabitants of different countries, including trade, investment and transaction.
