A First Course in Probability 9th Edition PDF - Ready For AI
What I have discovered is that Kammler didn't really write a very good book for a first course in Fourier analysis. I am a math/physics major and found the book to be very scattered for a FIRST course. For example, the first chapter just dumps a whole bunch of information without presenting much background or context.

I've been in stats courses for three years and even now get stuck whenever I try this book. It's just not a first course level/appropriate level for the title. It had good programming tips, but that's what redeems it. As for a first course in Bayesian, try kruschke's book with the puppies. It's much simpler to get through.

A First Course in General Relativity by Bernard Schutz

"A First Course in Machine Learning by Simon Rogers and Mark Girolami is the best introductory book for ML currently available. It combines rigor and precision with accessibility, starts from a detailed explanation of the basic foundations of Bayesian analysis in the simplest of settings, and goes all the way to the frontiers of the subject such as infinite mixture models, GPs, and MCMC."
