Mauss provides, in A General Theory of Magic, a look and explanation of the rituals, actors, and lines of power (mana) involved, and magic's place as a collective phenomenon. I find myself particularly attracted to the systems of representation: there is a persistent relationship between a murderer and their victim, for example; there is a spooky action-at-a-distance between a flame and a fire; there are laws of similarity and so on.

A General Theory Of Magic by Marcel Mauss, Hardcover ...

Mauss and Hubert wrote another book titled A General Theory of Magic in 1902 [see external links for PDF]. They studied magic in 'primitive' societies and how it has manifested into our thoughts and social actions. They argue that social facts are subjective and therefore should be considered magic, but society is not open to accepting this.

Mauss set forth his conception of "magic" in a 1902 essay, "A General Theory of Magic". Mauss used the term magic in reference to "any rite that is not part of an organized cult: a rite that is private, secret, mysterious, and ultimately tending towards one that is forbidden". Conversely, he associated religion with organised cult.

A General Theory of Magic by Marcel Mauss

From this vantage, magic has become something more suitable for explaining than for being explained. But as Mauss (1972) decisively observed in A General Theory of Magic, magic is as much a way of doing as a way of thinking. We should consider, then, not a logic but an aesthetics of magical practice, as a particular way of making sense (Gosden 2001).
