A History of Future Cities by Daniel Brook - Goodreads
Nowhere is this better displayed than in journalist Daniel Brook's A History of Future Cities, a book about Mumbai, Dubai, St. Petersburg, and Shanghai--four cities perched at the delta between Western and Eastern civilization. In these metropolises, imperialist and nationalist influences have layered, mixed, and aggregated into unusual new forms.

Here’s a Look at the Smart Cities of the Future
In 1913 Future City was a newly developed town just north of Cairo, IL and located on a jut of land between the Mississippi River to the west and the Ohio River to the east. Nearly all of the citizens of this small town were African Americans who worked in neighboring Cairo.

A History Of Future Cities
In his A History of Future Cities, Brook traces the story of that journey toward urbanization and globalization to 1703 in St. Petersburg, Russia. That was the year when Tsar Peter the Great captured a Swedish fort at the mouth of the Neva River and began building what later became for a time the most advanced city in Europe.
