Thailand is committed to playing its part in the international effort aimed at addressing climate issues. As it is for most countries, the power sector in Thailand is among the largest emitters, accounting for 38% of energy-related CO2 emissions.

A Kingdom In Crisis Thailand

There are many sites in present-day Thailand dating to the Bronze (1500–500 BCE) and Iron Ages (500 BCE-500 CE). The site of Ban Chiang (around Udon Thani Province) currently ranks as the earliest known center of copper and bronze production in South Asia and has been dated to around 2,000 years BCE. Thailand also
