Business Ethics - Corporate Training Materials

Background. Clinical equipoise is the assumption that there is not one 'better' intervention present (for either the control or experimental group) during the design of a randomized controlled trial (RCT). A true state of equipoise exists when one has no good basis for a choice between two or more care options.

Definition of Ethics (1)

SUBCHAPTER 7. RECUSAL PROCESS. A State officer or employee, or special State officer or employee, may appeal an agency Ethics Liaison Officer's decision to disapprove an outside activity. Such appeal shall be submitted in writing to the Commission within 60 days of the employee's receipt of the agency decision.
