The Philosopher: Man, the Measure of All Things? (2014)

With the Measure Of Things tool, you can take a physical quantity - like 84 kilograms or 23 cubic meters - and see how it compares to a list of famous or well-known objects. For example, 84 kilograms is the weight of about 17 gallons of paint, while 23 cubic meters is about twice the volume of a cement mixer truck.

Man is the measure of all things - History of Greece and Rome

The Measure of All Things is the astonishing story of one of history's greatest scientific quests, a mission to measure the Earth and define the meter for all nations and for all time. Yet when Ken Alder located the long-lost correspondence between the two men, along with their mission logbooks, he stumbled upon a two-hundred-year-old secret, and a drama worthy of the great French playwrights.

The Measure of All Things by Ken Alder: Summary and reviews

The second primary starting point for formulating one's opinion of the world is God. This is the biblical worldview. There is no way an honest reading of Scripture will leave a person with the notion that man is the measure of all things. God is the measure of all things. God is the Creator. Everything in creation is for and about him NOT us.

The measure of all things (2002 edition) | Open Library

The words of Socrates, 'Man is the measure of all things', may be employed as a means for tracing the change in our understanding of Ancient Greek thought – a cultural litmus paper, as it were. It was a precept, a key reference principle, among the Andalusian philosophers, ...

A Measure Of All Things

The Measure of All Things is an excellent book. Ken Alder presents a superb narrative of the epic geodetic expedition that resulted in the definition of the metric system, with a close focus on the French astronomers Mechain and Delambre, who undertook the measurement of the global meridian through Paris.

The "Measure of all Things" - Thideology™ : God's Word ...

Man is the measure of all things, but things also exist without man. Long after we are all stardust, the laws of physics will still march on, implacable. Both the logical, "objective" tools of science and the mind-size tools of wisdom are necessary to make a complete Man. "Science sans conscience est la ruine de l'âme."
