A new history of photography (Book, 1998) [WorldCat.org]

The history of photography began in remote antiquity with the discovery of two critical principles: camera obscura image projection and the observation that some substances are visibly altered by exposure to light. There are no artifacts or descriptions that indicate any attempt to capture images with light sensitive materials prior to the 18th century (with the arguable exception of a ...

A History of Photography - New Mags

History of Photography. The history of photography timeline is a history of art and science together. Many photography timelines start with the first known photograph by Nicéphore Niépce in 1827. But it actually goes much further back than that. It goes back to a time and technology before lenses, cameras, and even film.

20 First Photos from the History of Photography

Carleton Watkins is a true pioneer of landscape photography. He is an American photographer who is best known for his amazing photographs of the Yosemite Valley. To capture the extraordinary detail of the breathtaking landscape, Watkins famously packed up his mammoth-plate camera, which used 18X22 inch glass plates, tripods, and tents on mules and trekked through the Valley, returning with 30 ...

A New History Of Photography

A New History of Photography was created after the French Ministry of Culture observed that there were no books produced in France that addressed the history of the art form. Rather than present the standard chronological survey, this book's creators chose to produce a volume that would encompass photography's historical evolution as well as its role in society.
