[Official Audio]

The easiest way to slow dance is to sway back and forth as you and your partner rotate in place. Hold your partner's hand and place your other hand on their upper arm or waist. Face your partner so your faces are 1-2 feet (0.3-0.6 meters) apart. Slowly shift your weight from one foot to the other, back and forth, so you're swaying.

3 Ways to Slow Dance -
wikiHow

You better slow down, don't dance so fast, time is short, the music won't last. When you run so fast to get somewhere, you miss half the fun of getting there. When you worry and hurry through your day, it's like an unopened gift thrown away. Life isn't a race, so take it slower, hear the music before your song is over.
