The Two Cultures is the first part of an influential 1959 Rede Lecture by British scientist and novelist C. P. Snow. Its thesis was that "the intellectual life of the whole of western society" was split into two cultures - the sciences and the humanities - which was a major hindrance to solving the world's problems. The Two Cultures and the Scientific Revolution was a published version of the lectures in book form.

Project MUSE - A Tale of Two Cultures
attendants as a way of understanding the differences between the two cultures. However, while there is an abundance of research on pilots, there is very little on flight attendants. We have found two studies worth mentioning which contrast pilot and flight attendant attitudes and orientations.

"A Tale of Two Cultures is an informative read for social scientists, especially those who find themselves specialized in one culture of research instead of the other (which of course) is most of us. If one is absent a background in either culture, Goertz and Mahoney provide clear examples to illustrate their arguments.
