Financial History: The Evolution of Accounting

The most concrete milestone in the history of financial accounting came in 1494, when Italian businessman Luca Pacioli published the first accounting textbook, called "Summa." This book detailed the double-entry bookkeeping system that was just coming into use during this period, and has led many to call Paciolo "The Father of Accounting."

What is accounting? Definition and history of accounting ...

A balance sheet shows you if your assets balance with your liabilities at a specific moment in time. In other words, the document relies on a fundamental accounting equation: Assets = Liabilities + Equity. Think of a balance sheet as a snapshot of your business's financial health—on one side of the sheet, you list your (tangible and intangible) assets, and on the other side, you list your ...
