Georgism, also called geoism and single tax (archaic), is an economic ideology holding that, while people should own the value they produce themselves, economic value derived from land (often including natural resources and natural opportunities) should belong equally to all members of society. Developed from the writings of the economist and social reformer Henry George, the Georgist paradigm ...

Inventory (American English) or stock (British English) is the goods and materials that a business holds for the ultimate goal of resale (or repair).. Inventory management is a discipline primarily about specifying the shape and placement of stocked goods. It is required at different locations within a facility or within many locations of a supply network to precede the regular and planned ...
