Best Answer: Combustible incense is made in the form of sticks (sometimes called joss-sticks), bricks, or cones. Whatever the volume and shape, combustible incense is always made with potassium nitrate, better known as salt peter. This helps the incense to burn well, and evenly. You can find potassium ...

Joss Sticks for sale | eBay
Cored stick: A supporting core of bamboo is coated with a thick layer of incense material that burns away with the core. Higher-quality variations have fragrant sandalwood cores. This type of incense is commonly produced in India and China. When used in Chinese folk religion, these are sometimes known as "joss sticks".

Incense - Wikipedia

Joss sticks are a type of incense. They are traditionally burned before an Asian religious image, idol, buddha statue, or shrine. But some joss stick burning rituals (and the prayers that come with it) do not need to be done in front of religious images. They can be burned before anything without limits; like in front of a door, or open window as an offering.
