The Physics Classroom Tutorial presents physics concepts and principles in an easy-to-understand language. Conceptual ideas develop logically and sequentially, ultimately leading into the mathematics of the topics. Each lesson includes informative graphics, occasional animations and videos, and Check Your Understanding sections that allow the user to practice what is taught.

Physics Problems with Solutions and Tutorials
· Tutorials in introductory physics homework solutions materials equip the student with skills to visualize and apply the concepts taught in class to real life situations. One main problem that contributes to failure of students in finance homework solutions, and other courses is the inability to apply or connect the theory taught in class to ...
