However, some doctors without all of these qualifications -- internists, family physicians, osteopaths -- do have experience treating people with HIV and take very good care of their patients.

Aids And The Doctors Of

A courageous, wonderful, honest open book written by a physician and scientist who has done years and years of cancer research into Kaposi's sarcoma long before the beginning of the AIDS epidemic and who has come to the conclusion similar to mine that AIDS is not a natural occurrence, but a man-made creation with horrible implications. I really believe that any human being who cares about the ...

HIV/AIDS in the United States - Wikipedia

AIDS cases were also being reported in a number of European countries.^{10 11 12}. In Uganda, doctors reported cases of a new, fatal wasting disease locally known as 'slim'.¹³.
