Airguide instrument company – Ask Me Help Desk
This Airguide hygrometer probably dates from the 1950s. It uses a metal-paper sensor coil directly connected to the indicator needle. The coil consists of a salt-impregnated paper strip attached to a metal coil. As the paper strip absorbs or releases moisture it causes the metal coil to wind/unwind, much like a bimetallic thermometer coil.

History of the Airguide Instrument Co.
Instructions, Applications, and Catalogs Since Airguide Instrument Company has gone out of business, finding information on the applications of Airguide tachometers has become very difficult. In most Airguide applications the tachometer is teamed with a transmitter. The proper functioning of your tachometer depends on the correct transmitter/gauge combination for your application.

Airguide Instrument Co at Chicago, IL – USA.com™
I have a beautiful wood framed Airguide weather Instrument designed to be hung on a wall. It belonged to my parents and I would guess that it is approximately 25 to 30 years old. It has always had very good care and looks brand new. It has three separate instruments within a 37" tall (walnut?) frame : 2" X 10" thermometer, 10" diameter barometer and 3 1/2" humidity gauge.

Airguide Hygrometer 1950s – Analog Weather
Airguide Instrument Co. was founded in 1930 by Albert L. Stemwedel and Richard Fee in Chicago, IL. Their first products were battery maintainers for home radios (at that time, many homes were still not connected to the power grid) and hygrometers. Around 1932, they landed a major contract to provide thermometers to Marshall Field & Co.
