Airbus Engine Description

The logos of Airbus Industrie GIE and Airbus SAS displayed a stylised turbine symbol, redolent of a jet engine, and a font similar to Helvetica Black. The logo colours were reflected in the standard Airbus aircraft livery in each period. The EADS logo between 2000 and 2010 combined the logos of the merged companies, DaimlerChrysler Aerospace AG (a four-ray star) and Aérospatiale-Matra (a ...

Airbus A320neo - Wikipedia

Airbus recently had the first flight using special fuel. It used 60% kerosene and 40% gas to liquids (GTL) fuel. It gave out the same amount of carbon, but less sulphur. The special fuel worked with Airbus' engine, so this type of fuel should not need new engines. This flight is thought to be a good advance towards environmentally-friendly planes.
