In a society based on sensory stimulation, the trends in alcoholic beverages have not stayed on the sidelines. Bringing several senses into play at the same time makes for an all-round experience. For this reason, products are not based solely on one aroma, one colour or one flavour but offer a combination of all of them.

ASTM's sensory evaluation standards are instrumental in the

assessment of consumer products by the use of the human senses (sight, smell, taste, touch, and hearing). The discipline of sensory analysis requires the use of a panel of human evaluators, wherein test results are recorded based on their responses to the products under test.
