Book Review: Alluvial geoarchaeology, floodplain ...

The Gearagh is a submerged glacial woodland and nature reserve two kilometres southwest of Macroom, County Cork, Ireland. It is located at the point where the River Lee descends from the mountains and widens at an alluvial plain, and stretches for roughly five kilometres, bounded by the townlands of Toonsbridge, Illaunmore and Anahala.

Review of Alluvial Geoarchaeology: Floodplain Archaeology ...  
Soils and sediments on and below these surfaces contain  
important buried sites. The erosion and burial agents common  
along alluvial fans and other high energy depositional  
environments are also visible in profiles and these sediments  
can be discriminated from archaeological materials.

(PDF) Alluvial geoarchaeology: floodplain archaeology and ...  
Alluvial Geoarchaeology Many archaeological sites are buried by alluvium in floodplain and terrace settings. Finding and studying these sites can provide new insights into how river systems evolved throughout the Holocene. This topic has long been a staple of Geoarchaeology, given the close relationships between peoples and rivers.
