The relays are fast-acting devices. The technology is based on an attracted hinged-armature, whose pedigree within GE stretches to millions of relays in the field. The plug-in nature means that the benign base of the product and the functioning relay unit are in two distinct halves of the ensemble.

Alstom Transformer Protection relay Micom P643 (Numerical ...

MiCOM Protection Relays. Protection relays are the "brains" that control the "muscle" in a power system. The "muscle" is typically a circuit breaker that can interrupt the flow of power when called upon by the protection relay to do so. Protection relays receive signals from the power system that indicate the status and health of it.
