## Where To Download Alternator For Mastercraft Engine

To check an alternator, pop your vehicle's hood and hook up a voltmeter to the car's battery by connecting the red lead to the positive terminal and the black lead to the negative terminal. Make sure the voltmeter reads at least 12.2 volts, then start your car and rev the engine to 2,000 RPM. Keep the engine running and check the voltmeter again.

Indmar Products Homepage - Indmar Products

I have this exact alternator on a '99 Mastercraft ProStar 205v. The engine is a mercruiser 5.7L. The engine starts and runs fine but after running for a few minutes the engine will not turn off using the ignition switch. I've tested the relay connected to the purple/red stripe wire and it works fine. Any help is greatly appreciated.
