If they're on sale in both the Amazon and Google Play bookstores, you could also download them both.

AmpKit - Guitar amps & pedals | AppleVis
Rating: 8 - I enjoyed setting the volume of input and output on Ampkit Link The Ampkit Link has a big flaw, despite its stack: there is indeed feedback. As a noise gate is mandatory and a kind of unpleasant metallic sound persists. This is unfortunate because the simulations of Ampkit are quite correct for the price.

Agile Partners - AmpKit
The Ampkit after 4 hours of working with it has convinced me it is not the tool for anything except doodling in the headphones. It is very rough sounding in everyway. The Amplitude seems the most user friendly and has the best tone so far, but has some quirks with the interface. That said it is the favorite so far.
