Brain and Behavior offers a unique inquiry-based introduction to behavioral neuroscience, with each chapter focusing on a central question (i.e., "How Does the Nervous System Function?").

Introduction to the Brain (1 hr)

Option #1: Clipping. The skull is opened up, the aneurysm is found, and then 'clipped' with a micro clip. This cuts off the blood flow within the aneurysm, sealing it off from the arterial circulation. The aneurysm then withers over time. It can be really technically challenging for neurosurgeons to reach a brain aneurysm.
