In linguistics and related fields, pragmatics is the study of how context contributes to meaning. Pragmatics encompasses phenomena including implicature, speech acts, relevance and conversation. Theories of pragmatics go hand-in-hand with theories of semantics, which studies aspects of meaning which are grammatically or lexically encoded. The ability to understand another speaker's intended ...

Pragmatics – Wikipedia

We then focus on the interpersonal dynamics of interaction, and consider politeness and impoliteness theories. The final week concerns the application of pragmatics to cross-cultural situations. The emphasis of the course is on the application of pragmatic theory to 'real' data, and how that application affords insights into both the data and ...
