One ("1") point should be deducted for each incorrect answer. At the bottom of each page, record the total points awarded for that page.

Chemistry final exam answer key - bmnr.bcc1.it
Game theory is the study of mathematical models of strategic interaction among rational decision-makers. It has applications in all fields of social science, as well as in logic, systems science and computer science. Originally, it addressed zero-sum games, in which each participant's gains or losses are exactly balanced by those of the other participants.
