Angry Birds Parabola Project ? Algebra2Coach.com
Angry Birds – Parabolas. Jon Orr April 27, 2012 5 Comments [UPDATED – Sept. 25 2015] We have just spent a week working with quadratics in MPM2D and today I had students create their own angry birds level. The only real requirement was for them to create at least two flight paths and model them with quadratic equations.

Angry Birds: " The parabola edition" by Kaley Fournier on ...
Question 749246: Have a project with Angry Birds where you have to find the equation of a parabola for the bird's flight path in various situations. I have to pick a point at the origin and a pint on the x axis for the pig to be placed and find the flight path (equation).

Quadratic Angry Birds: The Game – GeoGebra
This set of games asks students to find the correct equation of the parabola in order to hit the pig! Three set of coordinates are given and students are required to calculate the equation of the parabola. They will be required to understand the equation of a quadratic, in particular the form $y=a(x - p)(x - q)$ would be helpful. Great fun!

Answers Parabola To Angry Birds
Do not have them make catapults for the Angry Birds Parabola Project. This will take entirely too much time on things unrelated to the standards you are supposed to be teaching. If this is the version of the project you want to do then partner with a shop class or art class while creating the catapult will meet a standard for that teacher.

Angry bird parabola
All the birds and pigs Yellow bird After finding the vertex of the equation (18,36) I applied that into the vertex formula and then took the point (0,12) to solve for a. Then i foiled out the equation to solve for the standard form. Domain: -Infinity<x<Infinity Range:

Angry Birds: The Parabolic Edition by Reshma Goud on Prezi
The game Angry Birds requires that you shoot a bird from a slingshot in a parabolic curve and try to knock down a variety of objects. Suppose you have a red bird (object) and you are trying to knock over a pig (target) standing
