In this article, we focus on adaptive linear regression methods and propose a new technique. The article begins with a review of the online passive aggressive algorithm (OPAA), an adaptive linear regression algorithm from the machine learning literature. We highlight the strengths and weaknesses of OPAA and compare it with other popular adaptive regression techniques such as moving window and ...

W 2Rt(d+1) is the underlying linear regression model. Both X 0 and Y 0 can be viewed as the denoised features and responses for the sensitive data. Then the problem of learning the regression model of sensitive data is essentially equivalent to learning the regression model of X 0 and Y 0. To preserve both the privacy and regression model of sen-
