midst of them is this as en 9100 series aviation space and defence that can be your partner.

Wikibooks is a useful resource if you're curious about a subject, but you couldn't reference it in academic work. It's also worth noting that although Wikibooks' editors are sharp-eyed, some less scrupulous contributors may plagiarize copyright-protected work by other authors. Some recipes, for example, appear to be paraphrased from well-known chefs.

AS9100 is a widely adopted and standardized quality management system for the aerospace industry. It was released in October, 1999, by the Society of Automotive Engineers and the European Association of Aerospace Industries.. AS9100 replaces the earlier AS9000 and fully incorporates the entirety of the current version of ISO 9001, while adding requirements relating to quality and safety.

Normenreihe EN 9100 | Berlin | Aviation Coaching Consulting
Quality in the aerospace industry, from commercial to defense aviation, is measured against the AS/EN 9100 standard series. AS/EN 9100 aerospace standards, developed by the International Aerospace Quality Group (IAQG), covers the entire
