Introduction - ATLAS.ti 9 User Manual - Windows

Since roughly the turn of the century, qualitative researchers can make use of qualitative data analysis software [QDAS, or CAQDAS: Computer-Assisted QDAS] such as ATLAS.ti, NVivo, and an ...

Atlas Ti The Qualitative Data

ATLAS.ti is a powerful workbench for the qualitative analysis of large bodies of textual, graphical, audio and video data. It offers a variety of sophisticated tools for accomplishing the tasks associated with any systematic approach to "soft" data.

ATLAS.ti: The Qualitative Data Analysis & Research Software

Description and usage. The purpose of ATLAS.ti is to help researchers uncover and systematically analyze complex phenomena hidden in unstructured data (text, multimedia, geospatial). The program provides tools that let the user locate, code, and annotate findings in primary data material, to weigh and evaluate their importance, and to visualize the often complex relations between them.

ATLAS.ti - Qualitative Data Analysis - Research Guides at ...

Qualitative data analysis simply means to convert the raw data sources (participant's text/voices/images) into the interpreted format (findings/research report). This course demonstrates the main functions in ATLAS.ti for the purpose of qualitatively making sense of different types of data formats, such as textual, images, audio, video and maps.

ATLAS.ti vs SurveyLab - 2020 Feature and Pricing Comparison

Choosing between Nudist and Atlas/ti, the main qualitative data analysis software packages can be difficult. To assist researchers in making this choice, I have conceptualised their differences along two dimensions, related to the qualities of the software and of the research project.

Atlas-ti - The Hague University

"Atlas.ti is easy to use, and it has good functionality that allows me to run analysis on my qualitative research projects." 4.8 / 5 "Easy to use, diverse question options including great ranking question." "It's easy to use and to figure out. It gave a wide range of options and a clear overview of all the collected results." Customer Support
