Why Does Your ATV Backfire? Backfiring in an ATV engine, or any small engine, is usually the result of either one or multiple spark plugs igniting the fuel in the chamber when it is out of turn, sparking during the combustion cycle when the exhaust valve is open on that cylinder. So does that alone cause the backfire?

Valve guides | Honda ATV Forum

Hey all, I work for a fleet shop and we have a lifeguard ATV its a Kawasaki brute force 650. Its back firing through one carb more than the other one and back firing through the exhaust. Starts good, once you start giving it throttle it acts as if its starving for fuel. This thing ge...

Atv backfiring help please

Turns over but won't run, smell fuel and I would get a backfire or two Checked fuel- ok Spark-ok Injector- ok Moved on to checking timing and valve lash clearance Ok, thought maybe the chain sprocket timing is ok per service manual. I am stumped at this point, could it be a sensor (cam) or something telling the computer to fire spark/fuel ...

Backfire Causes and Cures | Can-Am ATV Forum

So I just pulled the head off my 04 trx 400 FA hoping only the valve stem seals need to be replaced. Well, one of my valve guides is broken and the valve was bent really bad. How do I replace the valve guide and why would it be bent. I wanna figure out the best way to replace the guide.
