To keep the conditions perfect inside your Audi, every two years we recommend having an air conditioning service - including a gas top-up and detailed inspection. Between services, we can also do an air conditioning refresh: an ultrasonic treatment that clears microbial, fungal and bacterial particles to keep the air pure and fresh.

AUDI A4 OWNER'S MANUAL Pdf Download.

When the air conditioner in your 2008 Audi S5 starts blowing hot air, you likely have a freon leak. Recharging the freon in your AC system is an inexpensive and easy first step to restoring the cooling capacity of your A/C system. Most refrigerants include a leak sealer that will seal small leaks in addition to filling the R134a refrigerant.

The Audi e-tron range uses the CCS charging standard, which consists of a combined AC and DC inlet port. The top portion of the inlet is for the Type 2 connector, which is used when charging at home, or at public slow and fast AC points. Both the upper and lower sections on the inlet are used to carry high power during rapid DC charging.
