When Inventor 2019 has established an AnyCAD reference to a Fusion 360 file (.fusiondesign) in Fusion Team, Inventor 2018 might fail to download it. The workaround is to update the Fusion 360 design to a new version and create a new AnyCAD reference in Inventor 2018. This is a known issue that we are looking to address in the future.

Autodesk Inventor 2018 Tube And Tube and pipe styles describe the characteristics for tube, pipe, and hose routes. These styles are key to controlling the fittings and rules of the routed system as it evolves from prototype to manufacturing. Tube and pipe styles affect most aspects of route design from route creation and editing to populating the route. They ensure consistent application of tube and pipe components
