It's easy to search Wikibooks by topic, and there are separate sections for recipes and childrens' texbooks. You can download any page as a PDF using a link provided in the left-hand menu, but unfortunately there's no support for other formats. There's also Collection Creator – a handy tool that lets you collate several pages, organize them, and export them together (again, in PDF format). It's a nice feature that enables you to customize your reading material, but it's a bit of a hassle, and is really designed for readers who want printouts. The easiest way to read Wikibooks is simply to open them in your web browser.

Is it an analog Autohelm 800 (with the round dial)? My guess is that you have it set to make a turn. Take the unit out of the pin while still plugged in and turn the unit in various different headings and see if it reacts. This happened to me once on an Autohelm 800 too. I just played with the dial too much.
