Key & Remote Coding 2) Key + System Types The transponders signal or code is either fixed or on more modern vehicles, always changing or rolling. Rolling code systems started to appear after 1998 and most models now employ the newer system. Often the diagnostic system to select on the AutoTEC tool can indicate the system.

Autotec Guide Key Remote Coding
The type of key or plip can complicate coding a key. The AutoTEC will display "PROGRAMMING FAILED" if the vehicle was expecting a different key or fixed code if pre-crypto. If the manufacturer changed the type of key and/or transponder in the year of vehicle being worked on this can cause a headache as the above problem would appear.
