For me, this was the machine that really got me into programming and micro electronics. The BBC Micro was developed by Acorn computers for the BBC who were embarking on an education programme for the UK called the "BBC Computer Literacy Project". The BBC made it their mission to have at least one of these machines available in every school in the UK.

BBC Micro - Manuals

There were five developments of the main BBC micro circuit board that addressed various issues through the models production, from 'Issue 1' through to 'Issue 7' with variants 5 and 6 not being released. The 1985 'BBC Microcomputer Service Manual' from Acorn documented the details of the technical changes.

Acorn BBC Micro Model A - Computer - Computing History

Replacing the BBC Micro X2 Capacitors. Dismantling the PSU is reasonably straightforward and replacing the X2 capacitors is easy if you're handy with a soldering iron but if you're uncomfortable with working on PSU's, there are places online that will service, repair or replace your PSU for you and it may be better that you contact one of those places rather than attempt the "surgery" yourself.
