Mercedes A150 timing chain with only 50,000 miles

Diesel Benz Hardcore MB Enthusiast. Certain ABS/ESP (actually ESP) components need a road test for initial calibration. Sounds like the generic diagnosis tool initiated the control unit data instead of simply clearing all current fault codes. There used to be a video in SDMedia explaining how this road test is performed.

Hi. well mercedes benz of Sydney rang me this morning with the quote for the timing chain repair for my 2000 A160 [131,000km]: it's over \$10,000! Can't send the engine to Germany as it is on the other side of planet earth. However I have to wait for parts to come from Stuttgart - maybe up to 2 weeks. No reason for timing chain to break.

Bert Rowes Mercedes Benz A

Are Mercedes-Benz workshop staff really so naive that they are not aware of this common problem on the 'A' Class or are they just trying it on? This is not the first time an owner has been told that there is a major gear box fault and that it will have to come out of the car and be replaced. See page 59
