History of the bicycle - Wikipedia

The evolution of triathlon as a distinct sport is difficult to trace with precision.

Many, including triathlon historian and author Scott Tinley, consider events in early twentieth century France to be the beginnings of triathlon, with many three element multisport events of differing composition appearing all called by different names. The earliest record for an event was from 1901 in

Gear - VeloNews.com

Vehicles that have two wheels and require balancing by the rider date back to the early 19th century. The first means of transport making use of two wheels arranged consecutively, and thus the archetype of the bicycle, was the German draisine dating back to 1817. The term bicycle was coined in France in the 1860s, and the descriptive title "penny farthing", used to describe an "ordinary ...
