Proteins - SlideShare

Gluconeogenesis (GNG) is a metabolic pathway that results in the generation of glucose from certain non-carbohydrate carbon substrates. It is a ubiquitous process, present in plants, animals, fungi, bacteria, and other microorganisms. In vertebrates, gluconeogenesis occurs mainly in the liver and, to a lesser extent, in the cortex of the kidneys.It is one of two primary mechanisms – the ...

ايدى بيكيو - زولوجيا للحيات

This third edition includes new research about the self-deception gap in organizations and the keys to closing this gap. The authors offer guidance for how to assess the in-the-box and out-of-the-box mindsets in yourself and in your organization. It also includes a sample of Arbinger's latest bestseller, The Outward Mindset.
