If your public library has a subscription to OverDrive then you can borrow free Kindle books from library just like how you'd check out a paper book. Use the Library Search page to find out which libraries near you offer OverDrive.

### Tree of life (biology) - Wikipedia

The theory of evolution is the unifying theory of biology, meaning it is the framework within which biologists ask questions about the living world. The Ukrainian-born American geneticist Theodosius Dobzhansky famously wrote that "nothing makes sense in biology except in the light of evolution."

### Darwin's Theory Of Evolution

The crucial break from the concept of constant typological classes or types in biology came with the theory of evolution through natural selection, which was formulated by Charles Darwin in terms of variable populations. Darwin used the expression "descent with modification" rather than "evolution."

### Darwin's work on evolution - Evolution - AQA - GCSE ...

Such adaptation is not, however, the primary cause of transformation from group to group up and down. Consequently, in contrast to Darwin's later theory, the primary evolution of life is not through adaptation. Major transformations between lesser groups may, however, occur through the appearance and disuse of structures.
